

Strawberry Banana, also known as "Strawnana" for short, is an [indica](#) marijuana strain developed by [DNA Genetics](#) in collaboration with Serious Seeds. A genetic cross of Crockett's [Banana Kush](#) and the "Strawberry" [phenotype](#) of [Bubble Gum](#), Strawberry Banana inherited a sweet, fruity flavor, hence the name. Known for its heavy resin production and high-THC content, Strawberry Banana produces happy, peaceful effects that sharpen creativity and sensory awareness.
